Celebrating 20 Years in Tech

Technical Resource Solutions' 20th Anniversary (2003-2023)

WOODSTOCK, GEORGIA, August 15, 2023 – Technical Resource Solutions is proud to recognize its 20th anniversary this year. Established on August 14, 2003, Technical Resource Solutions (TRS) has specialized in business IT, website development and design, and digital marketing for two decades.

TRS has positioned itself as a unified technology service provider for all types of businesses. From managed IT services and website design to customized digital marketing strategies, Technical Resource Solutions' team of dedicated professionals continue to unify their clients' technology strategies across the board.

In April 2023, TRS launched a complete redesign of their website, technicalrs.com. Over the years, the TRS website has provided valuable information on technology strategies and up-to-date blogs covering trends in tech, computer security, digital marketing, company branding and more.

In 2018, TRS expanded into a new office space in downtown Woodstock, Georgia. Over the past five years, TRS has made unique renovations to their office space, including a spacious conference room area and the addition of their cutting-edge 2aT Studio. These expansions continue to equip TRS in unifying their clients' technology strategies, including managed IT services, website design and digital marketing.
